TITLE: *Traversing Mountains* (1993)

Different scenes are combined in this single artwork. This piece uses a technique called collage, where pictures are cut and pasted onto a surface.

It seems like we are looking at a scene from a dream. Do you think this landscape comes from reality...?

There are other collage works, too!
Let's look for them!

② Let's imagine and write down the sounds you hear!

Is this a living creature?
A plant? Or could it be...?

What could this be?

There are similar works
on the second and fifth floors!

Rrring!

Rustle

Are they talking?

A quiet sound...?

What kind of sound is it?
